Summary

Software Developer with hands-on experience building scalable full-stack web applications using the MERN stack. Strong in DSA, REST APIs, JWT authentication, AWS, Docker, CI/CD, and Computer Science fundamentals.

Skills

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, TypeScript

Backend & APIs: Node.js, Express.js, RESTful API, JWT Auth, Role Based Access Control

Cloud: AWS (EC2, IAM, S3, RDS, CloudFront, Route 53, API Gateway, Lambda)

DevOps: Docker, Kubernetes, Jenkins (CI/CD), Linux

Language/Tools & Databases: JavaScript, Java, Python, C/C++, Oops, Git, GitHub, MongoDB, MySQL

Experience

LLM Post Training Intern

March 2026 – June 2026

EtharaAI (Remote)

- Contributed to **LLM post-training workflows** by analysing model responses, improving prompt quality, and validating AI-generated outputs for accuracy, relevance, safety and achieved **100%** task completion rate, demonstrating strong consistency and learning ability.
- Assisted in enhancing model performance through **data annotation, response evaluation, and feedback optimization**, ensuring higher quality conversational AI interactions aligned with user requirements.

Java Developer Intern

June 2025 – Aug 2025

CodTech IT Solutions Pvt. Ltd. (Remote)

- Engineered a **multithreaded client-server chat system** using **Java Sockets** and OOP principles, and built a **REST API** client for third-party HTTP endpoints — directly applicable to backend microservice and fintech API patterns.
- Developed a **product recommender system** leveraging hash maps and trees, reinforcing core DSA and OOP skills with real-world application in recommendation engine design.

Projects

Resume Builder with ATS checker | *HTML, CSS, JavaScript, Node.js, Express.js, REST APIs* Sept 2025 – Oct 2025

- Extended an AI-powered ATS Resume Builder with **real-time preview, multiple templates, and automated PDF generation**, reducing resume creation time from **20–25 minutes to under 10 minutes**.
- Integrated **OpenAI APIs** to perform ATS analysis, keyword optimization, and personalized resume feedback, increasing resume quality and ATS compatibility.
- Implemented robust **server-side validation and dynamic template rendering**, reducing manual formatting effort by **40%** and significantly improving output consistency.

Team Task Manager | *React.js, Node.js, MongoDB, RBAC, JWT, AWS EC2, Docker*

Dec 2025 – Jan 2026

- Designed a full-stack **task management application** with separate Admin and Member dashboards, enforcing **role-based access control** via **JWT** so each role sees only permitted actions and data.
- Containerized the application with **Docker** and deployed on **AWS EC2**, achieving isolated, reproducible, and horizontally scalable production deployment.

Awards & Certifications

- **Full Stack Web Development (MERN)** – Apna College (Sigma 5.0)
- **Data Structures & Algorithms** – 50-Day LeetCode Challenge & 100+ Problems Solved
- **Docker** – Containerization & Deployment
- **AWS Cloud Practitioner Essentials** – AWS Skill Builder

Education

B.Tech. Computer Science & Engineering

Graduated: 2026

Laxmi Devi Institute of Engineering & Technology, Chikani, Alwar, Rajasthan

CGPA: 9.3 / 10
