

Dear Hiring Manager,

I am writing to express my interest in the Full Stack Developer position at Sofgen Infotech Private Limited. As a recent B.Tech graduate with a strong academic record (9.3 CGPA) and hands-on experience in full-stack web development, I am excited about the opportunity to contribute to your team.

I have worked extensively with HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Docker, and AWS through my projects and internships. Some of my notable projects include a Resume Builder with ATS Checker, a SaaS-based Document Signature Platform, and a Team Task Manager deployed on AWS EC2 using Docker. These projects helped me develop practical skills in backend development, database management, API integration, cloud deployment, and problem-solving.

In addition, my internship experience exposed me to collaborative development practices, debugging, and delivering scalable solutions. I am passionate about building user-friendly applications and continuously learning new technologies to enhance my skills.

I am eager to begin my professional career with Sofgen Infotech and contribute to developing innovative software solutions while growing as a Full Stack Developer. I am confident that my technical foundation, enthusiasm for learning, and dedication to excellence would make me a valuable addition to your organization.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my skills and experiences align with your requirements.

Sincerely,

Amit Sain
